

Headphones so comfortable you can wear them to bed.

## For Music Lovers

Bedphones are on-ear headphones designed for comfort in bed. They solve an issue plaguing music lovers and poor sleepers everywhere: most headphones are not comfortable enough to wear to sleep.

**Infinitely Adjustable • Incredible Comfort • Travel Ready**

Moldable memory wire provides infinite adjustments for a custom fit.

At less than 1/4" thick, Bedphones are the thinnest headphone on the market.

## Travel Ready

Bedphones are the perfect travel companion. Keep them safe on-the-go with the included sturdy-sided travel case and 90-day manufacturer's warranty. And for long rides, they also come with a comfy satin eye mask.
